

Hellfire Missile Launcher Test Station (LTS)

Scope

- Created technical manuals for the maintenance technicians
- Developed a comprehensive training platform to aid maintenance technicians with validation/verification procedures of the LTS
- Increased maintenance technician proficiency by decreasing the number of technician test errors

Highlights

- Integrated Performance Support System (PSS) into the Hellfire Test Set and Launcher Test Station
- Integrated operational 3D models into the technical manuals
- Realized a 40% decrease in maintenance technician hands-on time
