

Rolls-Royce Customer Training

Scope

- Created complete 3D models of the RR300 engine showing all internal and external components of the engine
- Developed media to support Rolls-Royce training manuals and instructor-led courseware including animations of the engine in operation
- Created SCORM-conformant engine maintenance training for seven aircraft engines

Highlights

- Used Adobe Acrobat® 3D PDF technology to showcase models
- Used 3D animations of the fuel control and lubrication engine systems
- Decreased Rolls-Royce “time to train” for maintenance technicians
